

1)

2) if you look at all the statistics, you can see that England is still ahead of the other countries in terms of application figures.

3)

4) Looking at the excel file, we can see that Germany had the most candidates registered in 2023, with 529600 candidates.

5) By sorting the excel, we can see that Germany had the most candidates in 2023, with a total of 667,650 candidates.

9) Somalia, South Sudan and Eritrea received no votes between 2006 and 2023.

Somalia has been plagued by prolonged armed conflict, political instability and extreme poverty. These factors limit access to quality education and opportunities for students to apply and study abroad. As a result, Somalia has not received a vote in any year between 2006 and 2023.

Since its independence in 2011, South Sudan has suffered from civil war and political instability, which has severely affected its education system. Limited educational infrastructure and national priorities focused on stabilization and reconstruction may explain the low number of applicants.

Eritrea has restrictive policies regarding the exit of its citizens from the country, often due to its compulsory and prolonged military service and strict government restrictions. This greatly reduces opportunities for students to study abroad, including in the UK.

10)

35+: Germany with 27040 applicants.

male +35 years: 8190 applicants

female +35 years: 18550 applicants
